

SESSION 5 (.5 hours)
GRAIN HANDLING PROGRAM ADMINISTRATION

Lesson Plan: Student Guide
Grain Handling Program Administration

Overview

Preventing the occurrence of hazards in the grain handling industry requires effective safety and health management. To support this effort, OSHA has made several requirements for employers in grain handling industries to develop written safety programs and provide effective training. This lesson will provide an overview of the written program and training requirements.

Lesson Objectives

Upon completion of this topic students should be able to:

1. Understand the written safety program requirements of 29 CFR 1910.272.
2. Understand the safety training requirements of 29 CFR 1910.272.

Training Resources

1. PowerPoint Presentation with instructor notes (Color)

Activities and Classroom Procedures

1. Review course objectives
2. PowerPoint slides with class discussion

Lesson Roadmap

1. Overview of Written Program and Training Requirements
 - a. Slides to be used : 1-2
 - b. Objectives Covered : 1,2
 - c. Exercise/Demos : None
 - d. Training Aids : None

2. Written Safety Program Requirements
 - a. Slides to be used : 3-5, 8
 - b. Objectives Covered : 1
 - c. Exercise/Demos : None
 - d. Training Aids : None

3. Safety Training Requirements
 - a. Slides to be used : 6-8
 - b. Objectives Covered : 2
 - c. Exercise/Demos : None
 - d. Training Aids : None

Evaluation and Assessment

- a. Interactive conversations
