Elevate your career

A master's designed for working professionals. With online courses and face-to-face campus visits, this program was designed to fit your work schedule and lifestyle. Real-world projects, team collaborations, and industry case studies keep learning relevant and fresh.

1 of a Kind

The first program of its kind in Georgia.

Top 10

Georgia Tech consistently ranks among the nation's top 10 public universities.

2 Years

Earn your degree in 2 years, while you work.

3 Campus Visits

Collaborate with your peers during 3 brief on-campus visits (each 4 days long).

24/7 Online Course Access

Access course materials online 24 hours a day, 7 days a week.

3 Elite Divisions

Benefit from the combined expertise of three Georgia Tech entities: the Georgia Tech Research Institute, College of Design, and Georgia Tech Professional Education.

6 Areas of Knowledge

Master 6 areas of knowledge, including OSH fundamentals, standards, technology, communication, business concepts, and a capstone experience that brings it all together.

10 Courses

Ten courses prepare you to manage complex safety and health programs, including: identifying risks; deploying action plans; measuring and improving performance; applying analytical, technological, and business insights; and demonstrating value.
