

# Confined Space Reclassification Form

Location of Confined Space (be specific):

---

Complete the following prior to entry into each confined space considered for reclassification to a non-permit confined space. If any of the questions below are answered YES, describe how the hazard has been eliminated.

**NOTE: The Hazard must be eliminated without entry to be considered a non-permit confined space.**

1.) Description of work activity:

---

2.) Atmospheric conditions:

- |   |        |
|---|--------|
| ✓ Is there a potential for an oxygen deficient or oxygen enriched atmosphere caused by oxidation, bacterial action, combustion, use of inert gases, leaking tanks, pipes, or hoses, etc.)?          | YES NO |
| ✓ Is there a potential for toxic contaminants to be present (hydrogen sulfide, methane, carbon monoxide, etc.)?   | YES NO |
| ✓ Is there a potential for an explosive or flammable atmosphere (residues, bacterial action, leaking pipes, hoses or tanks, reactions with acids or metals, painting and cleaning, residual dusts)? | YES NO |
| ✓ Will work performed in or around the space create a hazardous atmosphere?   | YES NO |
| ✓ Will/Was a hazardous material brought into the confined space?  | YES NO |
| ✓ Will residue from the hazardous material remain?  | YES NO |
| ✓ Will additional measures, other than mechanical ventilation, be needed to control the hazardous atmosphere?   | YES NO |

3.) Is the internal configuration such that the entrant could be trapped or asphyxiated by inwardly converging walls or a floor that slopes downward and tapers to a smaller cross section? YES NO

4.) Are there any other serious safety hazards related to the work activity that cannot be eliminated without entry into the space? If yes, the space must be considered a permit-required confined space until the hazard has been eliminated and the space reevaluated.

- |                         |        |  |        |
|-------------------------|--------|--|--------|
| * electrical            | YES NO | * deteriorating or unsecured objects           | YES NO |
| * mechanical            | YES NO | * biological hazards                           | YES NO |
| * fluids under pressure | YES NO | * work conditions affected by other work areas | YES NO |
| * gases under pressure  | YES NO | * ionizing radiation exposure or contamination | YES NO |
| * heated surfaces       | YES NO | * other  | YES NO |
| * potential for falls   | YES NO |  |        |

5.) Atmospheric testing

◆ Record all atmospheric testing data on reverse side.

I certify that all known or potential hazards have been appropriately eliminated prior to entry into the above confined space, thereby allowing for the reclassification of the space as a Non-Permit Confined Space:

Reclassification Authorized

By: \_\_\_\_\_ Date: \_\_\_\_\_  
(print) (sign) (ID#)

**Reclassification status may be maintained for the duration of the ENTRY as long as the hazards remain eliminated.**
