

2026 OSHA **FREE** Seminars

Safety, Health, and Environmental Services

Come learn – for free! – from professionals within Georgia's state OSHA Consultation Program who are well-experienced in assisting businesses with their safety and health concerns and questions. These short, free courses have lots of time for discussion with instructors and networking with other attendees on shared successes and challenges.

For \$25, you can get CEU credits for these courses and count them towards a GT Professional Education Certificate.

SAVANNAH Offerings-in person

▶ **OSHA 7405: Fall Hazard Awareness for the Construction Industry SAVANNAH**

Falls can wreak havoc not only on employees of small construction firms but on the company as well. Our Fall Hazard Awareness for the Construction Industry course provides you with the know-how to spot potential dangers at your work site. Plus, you'll learn how to evaluate those hazardous conditions so that you can minimize or prevent accidents from occurring.

Date: May 4, 2026 **Time:** 9:00-3:00

▶ **OSHA 7510: Introduction to OSHA for Small Business Seminar SAVANNAH**

If you own or manage a small business, this Introduction to OSHA course will help you navigate the world of OSHA regulations to help keep your employees safe and your company in compliance. This seminar will cover how OSHA works and how it applies to your business, the inspection process, and how to create strong safety and health programs. There will be lots of time for questions as well as instruction on how to access free resources available to small employers.

Date: May 5, 2026 **Time:** 8:30-12:30
